# Guarantee

We cannot guarantee any trees, shrubs and plants sold by us, other than that they are true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise; we do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods. In no case do we assume responsibility after goods are shipped, unless for our own mistakes. If the purchaser does not accept the goods on these terms, they are to be returned at once.

 No claims for errors or shortages will be allowed unless made immediately upon receipt of goods.

 We will not fill long lists for one or two of a kind at less than single rates; we will supply 25 of a kind at hundred rates, 250 of a kind at thousand rates. **Samples will be charged at ten rates.**

 The only guarantee we make is that the stock will be true to name and in good condition when it leaves our grounds.

 All stock selected and marked by customer at the Nursery will be charged for in accordance with its value; prices in this catalogue will not govern such stock.

**TERMS**—Cash with order from unknown parties, or satisfactory reference. If goods are to be sent C. O. D., one-half of the amount must accompany order. Packing will be done in the best manner, at cost, at the expense of the purchaser, but no charge will be made for delivery to the railroad in Elizabeth.

**A Certificate of Inspection is attached to all shipments.**

We would be willing to take stock in exchange, from anyone desiring to purchase from 300 to 500 of these beautiful trees at our extremely low prices. We are not offering these trees at this low price on account of their not being good; it is because we have a large quantity, and they must be sold this Spring, as we are giving up the land where they are growing. One of our finest trees for landscape work.

## Very Cheap — Imperfect Shade Trees

In all nurseries are trees that are not quite perfect, which have to be either sold at a discount, or transplanted to other grounds by the nurseryman, and allowed to grow and mature in order to make perfect trees. His land is usually so expensive that it is better to give his customers a great bargain than to transplant these trees. We have a large quantity of trees that were transplanted several times when they were younger, well rooted stock, which we will sell at a great sacrifice in order to clear up some of our blocks. These trees are of all sizes and prices. The best way is to come and pick them out and agree upon a price on the ground.

## Evergreen Trees

 Customers who do not want their stock burlapped, will so state when ordering.

We ball and burlap all Evergreens, when we think it an advantage, at an additional charge of 10c. for 18 to 24 in., 15c. for 2 to 4 ft., 20c. for 4 to 5 ft., 25c. for 5 to 6 ft., and larger sizes in proportion.

All stock selected and marked by customer at the nursery will be charged for in accordance with its value; prices in this catalogue will not govern such stock.

## Cheap Evergreens for Screening

We have Evergreens running from 6 to 15 ft. in height, which would be very fine for screening purposes; they are not quite perfect on all four sides and we can sell them at very low prices. These trees have all been transplanted several times. We will sell them in quantity at one-half the price of specimen trees. They consist of Retinisporas, Pines, Spruces, Cedars and Arborvitæ.

## Pot-Grown Roses

The Roses we offer, are, with few exceptions, field-grown plants that were potted up during December and January and started in cold frames or cold houses so they break away naturally in the Spring, making the best possible stock for planting out.

One and two-year-old stock.

Send for price list, stating quantity wanted.

# Herbaceous Department

The growing of herbaceous perennials is a specialty with us. The superior quality of our stock is well known to the trade, so we need say very little to our old customers. To new customers we wish to say that we do not send out any plants that are not up to grade and can be depended upon to flower freely first season. We do not divide our plants nor send out small seedlings or overgrown old stock. Only solid, clean, one- and two-year plants are furnished.

## PRICES

In this price list where the ten price is given, it is intended to cover straight lots of ten plants each. Where less than 5 plants are ordered, an advance of 2 cents per plant over the rate will be charged.
